JSRO

Be an innovator

Robotics & IoT

Empowering students to build smart, connected, and innovative solutions through hands-on learning.

3D Printing

Transform ideas into reality by designing and creating real-world prototypes with cutting-edge additive manufacturing technology

Space & Astronomy

Inspire students to explore the universe through satellite technology, rocketry, astronomy, and hands-on space science projects

WORKSHOP

- 2 Days Workshop - Robotics and IoT
- Day 1-Session
  Day 2-Competition
- Top 3 Students get Robotics Kit, Medal & Certificate
- ₹7000/-

SCHOOL SUBSCRIPTION

- Robotics, IoT & 3D Printing
- School Will Recieve 10 New Kits quarterly
- ToT(Training of Teachers)
- Mentorship will be Provided to Students for Projects
- ₹70000/- per Annum

BOOTCAMP

- Robotics
- IoT(Internet of Things)
- 3D Printing
- Space & Astronomy
- ₹500/- per Student

Premium Plan– ₹1,00,000
Includes everything in the Subscription, along with a 3D Printer, 3D printing training,
